Summary

Database Engineer transitioning to a Business Analyst role, leveraging a strong foundation in SQL development, data management, and performance optimization. Over a year of experience translating business needs into technical solutions, including gathering requirements, collaborating with stakeholders, and developing project plans. Proficient in SQL, SSRS, and Power BI, with a proven track record of improving data integrity and client satisfaction. Eager to apply analytical skills and teamwork capabilities to deliver high-quality business analysis projects.

Experience

Yardi Software Pvt Ltd
Software Engineer

Jul 2023 to Aug 2024
Pune

- Developed and optimized **100+ custom reports** (SSRS, YSR, SQL) based on client requirements, directly contributing to meeting business objectives and delivering value.
- Collaborated with onshore/offshore teams to resolve issues, clarify tasks, and streamline code reviews, resulting in a **10% improvement** in delivery and client satisfaction. This involved understanding business needs and translating them into actionable tasks for the development team.
- Engineered complex SQL queries, stored procedures, triggers, and user-defined functions, improving query performance by **5%**. This showcases ability to translate business requirements into efficient technical solutions.
- Handled support for **150+ clients** and processed **500+ requests**, demonstrating strong communication and problem-solving skills essential for gathering and analyzing business needs.

Yardi Software Pvt Ltd
Software Engineer Intern

Jan 2023 to Jul 2023
Pune

- Created optimal technical solutions to meet user needs by performing in-depth system analysis and improving existing **SQL queries** to enhance performance and streamline data retrieval.
- Analyzed business reports to support prompt communication and provide ongoing technical support, while also developing reusable components to improve coding efficiency and documentation standards.
- Resolved complex business issues, proposing long-term solutions to prevent recurring problems and ensure smoother business operations.

TN Byte Pvt Ltd
Software Developer

Jun 2022 to Jan 2023
Nagpur

- Automated user engagement reporting by designing **SQL queries** to consolidate data from attendance, task completion, and performance tables into a unified dashboard.
- Optimized database performance by redesigning schemas, **normalizing** structures, and adding **relationships** to support faster and more efficient data retrieval.
- Tested and refined pre-built reports, enhancing **data accuracy**, visualization quality, and usability to meet reporting requirements.

Skills

Business Analysis Methodologies	Databases/Data Management	Project Management Tools	Reporting & Visualization	Languages
Agile	SQL	JIRA	SSRS	SQL (T-SQL, PL/SQL)
Waterfall	Microsoft SQL Server	Asana	Power BI	Java
BPMN	Data Warehousing Concepts	Trello		
	ETL Processes			

Education

G H Raisoni Institute of Engineering & Technology
Computer Science and Engineering - CGPA: 9.4/10

Jun 2020 to May 2023
B.Tech - Nagpur

- Developed and launched a Feedback Management System for the college, using Strapi as a headless CMS and React for the front end. The project is currently live and in use by the institution.
- Actively participated in 10+ webinars, staying up-to-date with the latest trends and technologies in the industry.
- Organized and led 80+ events, including workshops, hackathons, and coding challenges, fostering a collaborative and innovative environment.

Anjuman Polytechnic
Computer Science - Score: 9.4/10

Jun 2017 to May 2020
Diploma - Nagpur

- Explored various technologies, including Web Development, **Linux scripting**, **Data Warehousing**, and Big Data, with a particular focus on Data Driven Technologies.
- Completed an internship at Qaswa Technology, where I developed the Nois Tech website using Java, JSP and MySQL.
- Developed a College Management Web App as a capstone project, showcasing proficiency in full-stack development.
