Summary

Database Engineer with experience in SQL development, data management, and performance optimization, seeking a Support Consultant role. Proficient in troubleshooting complex SQL queries, designing databases, and creating reports using SSRS and Power BI. Adept at collaborating with teams to resolve issues and improve client satisfaction. Eager to leverage analytical skills and teamwork to deliver high-performance database solutions, with a strong understanding of the impact of software issues on patient safety. Willing to work in **24/7 shifts and on-call rotations**.

Experience

Yardi Software Pvt Ltd Jul 2023 to Aug 2024
Software Engineer Pune

- Provided software application support to **150+ clients**, processing **500+ requests** and collaborating with onshore/offshore teams to resolve issues, clarify tasks, and streamline code reviews, resulting in a **10% improvement in delivery and client satisfaction**.
- Diagnosed and resolved **10+ critical bugs** in the Voyager project and provided data fixes for over **7 million records**, ensuring **100% data integrity** and improving system stability.
- Developed and optimized **100+ custom reports** (SSRS, YSR, SQL) for client requirements, demonstrating strong problem-solving skills in a client-facing environment.

Yardi Software Pvt Ltd Jan 2023 to Jul 2023
Software Engineer Intern Pune

- Created optimal technical solutions to meet user needs by performing in-depth system analysis and improving existing **SQL queries** to enhance performance and streamline data retrieval.
- Analyzed business reports to support prompt communication and provide ongoing technical support, while also developing reusable components to improve coding efficiency and documentation standards.
- Resolved complex business issues, proposing long-term solutions to prevent recurring problems and ensure smoother business operations.

TN Byte Pvt Ltd Jun 2022 to Jan 2023
Software Developer Nagpur

- Automated user engagement reporting by designing **SQL queries** to consolidate data from attendance, task completion, and performance tables into a unified dashboard.
- Optimized database performance by redesigning schemas, **normalizing** structures, and adding **relationships** to support faster and more efficient data retrieval.
- Tested and refined pre-built reports, enhancing **data accuracy**, visualization quality, and usability to meet reporting requirements.

Skills

Languages & Databases	Tools & Technologies	Other
SQL (T-SQL, PL/SQL) Microsoft SQL Server Java	SSRS and SSIS (Reporting and Integration Services) Power BI ETL Processes Data Warehousing Concepts Version Control (Git, Bitbucket) Performance Tuning & Optimization Troubleshooting & Debugging	Data Modeling Reporting & Visualization

Education

G H Raisoni Institute of Engineering & Technology Jun 2020 to May 2023
Computer Science and Engineering - CGPA: 9.4/10 B.Tech - Nagpur

- Developed and launched a Feedback Management System for the college, using Strapi as a headless CMS and React for the front end. The project is currently live and in use by the institution.
- Actively participated in 10+ webinars, staying up-to-date with the latest trends and technologies in the industry.
- Organized and led 80+ events, including workshops, hackathons, and coding challenges, fostering a collaborative and innovative environment.

Anjuman Polytechnic Jun 2017 to May 2020
Computer Science - Score: 9.4/10 Diploma - Nagpur

- Explored various technologies, including Web Development, **Linux scripting**, **Data Warehousing**, and Big Data, with a particular focus on Data Driven Technologies.
- Completed an internship at Qaswa Technology, where I developed the Nois Tech website using Java, JSP and MySQL.
- Developed a College Management Web App as a capstone project, showcasing proficiency in full-stack development.
